Map Showing Surface Coal Mines in Gibson County, Indiana

Map Description
The map shows surface coal mines in Gibson County, Indiana. The map uses a Land grid, county boundary, water, and towns to define the limits or jurisdiction of any federal, state, or local government. This map is intended for on-the-ground survey and historical analysis of a single site and may differ from this map. There is no warranty implied or expressed regarding the suitability of a particular purpose or use. There is a disclaimer that the map is "AS-IS" without warranties of any kind, either expressed or implied.

Additional Information
The map was compiled by the Indiana Geological Survey (IGS) in the mid-1980s and the University, Indiana Geological Survey, using data from various sources. Some of the mined areas shown on this map were digitized from 2000 TIGER line files. Roads adapted from 1:24,000 scale USGS topographic maps. Updated surface mine maps are collected which includes updated surface mine locations. Published as the IGS Coal Map series. Annual State Division of Reclamation maps, some series of published maps. Geologists’ Reports, mining company records, archived geologic reports, geologists’ field notes, and several series of published maps.

Explanation
- Brown: Surface Mine
- Pink: Mine identification number

Data Availability
Federal and state agencies and individuals are encouraged to contact the Indiana Geological Survey, Indiana University, for the availability of data and information collected for the Coal Maps.

Disclaimer
The information that was compiled for this map was obtained from the best available sources. All Federal, state, and local agencies have been contacted and it was determined that no additional surface mine locations exist in Gibson County. The Coal Maps were created to provide a single source for coal mine data compilation complete through December, 2011. Some mine locations are approximate and do not include state or county coal mine data if the data are not available.
