Map Showing Surface Coal Mines in Greene County, Indiana

Explanation

Surface Mine

Map Description
The map depicts the location and extent of surface mines in Greene County, Indiana. The map includes mine identification numbers, mine locations, and other relevant information. The map uses a scale of 1:63,360 (1 inch = 1 mile) and is based on the North American Datum 1983 (NAD83) and the World Geodetic System 1984 (WGS84) coordinate system. The map uses the State Plane Coordinate System (NAD83/State Plane Indiana North) for the projection.

Additional Information
All data used to create the map was collected from various sources, including the U.S. Geological Survey, the Indiana Department of Natural Resources, and other government agencies. The map was created using Geographic Information System (GIS) software. The map was prepared by the Indiana Geological Survey.

Data Availability
This map is available for download from the Indiana Geological Survey website. The map is also available for purchase from the Indiana Geological Survey.

Disclaimer
This map is intended for general reference and should not be used for detailed site-specific planning. The accuracy of the data is not guaranteed, and the map may not be suitable for all applications. The user assumes all risk associated with the use of this map.
