Map Showing Underground Coal Mines in Parke County, Indiana

Explanation
- Documented Mine Subsidence
- Area of Coal Seam Model
- Blue/south
- Gullies
- Closed Drain
- Lower Stock
- Compare/Drift
- Upper Stock
- Unknown
- Mine Entry Type
  - Entrance
  - Area on drift
  - Hole or Drill
  - Skid
  - Number
  - IDNR Source Map
  - Depth in Coal (ft. or in.)

Map Description
This map shows the location of underground mine subsidence in Parke County, Indiana, which includes active mine entries. The data is compiled from a variety of sources including the Indiana Department of Natural Resources (IDNR), archived geological records, geological reports, and field notes compiled from on-the-ground surveys. The map is designed to show documented subsidence areas as of the time of its compilation.

Additional Information
- The map was compiled from information submitted by the Indiana Department of Natural Resources (IDNR) and other sources.
- The map is intended to be used for planning and development purposes but should not be used for legal or engineering purposes.
- The map is not to scale and is for general reference only.

Data Availability
- Requests for specific mine information should be sent to Head, Coal and Industrial Minerals Section, Indiana Geological Survey, 217 South Walnut Grove, Indianapolis, IN 46202.
