Map Showing Surface Coal Mines in Spencer County, Indiana

Map Description
This map shows the location and extent of surface coal mines in Spencer County, Indiana. The data was compiled from various sources including the Indiana Department of Natural Resources (IDNR) and the Indiana Geological Survey (IGS). The map was transformed using coordinates generated from the Universal Transverse Mercator (UTM) projection system, Zone 16. The map is believed to be accurate; however, it is recommended that users should apply a margin of error to the data. The map is intended for general reference and should not be used for detailed engineering or mining work. The map was created using MapInfo Professional software and the Esri, Redlands, California, USA data on the Windows platform.

Additional Information
The International Standard (ISO) 7000-2000 was used to ensure that the map was accessible to people with visual impairments. The map was also converted to a digital format using MapInfo Professional software. The map includes a scale bar and a north arrow for orientation. The map was compiled by Indiana Geological Survey, Bloomington, IN 47405, and is available for purchase through the Publication Sales Office of the Indiana Geological Survey.

Data Availability
Print and digital copies of this map are available for purchase through the Publication Sales Office of the Indiana Geological Survey. Paper copies are also available at no charge from the Coal and Industrial Minerals Section, Indiana Geological Survey, Bloomington, IN 47405. For more information, contact Licia Weber at (812) 855-2862 or via email at Weblia@indiana.edu. URL: http://igs.indiana.edu
