Map Showing Surface Coal Mines in Warrick County, Indiana

Map Description
The map shows locations and extent of surface coal mines in Warrick County, Indiana, which includes updated surface mine locations. The information was obtained from the Indiana Department of Natural Resources, Division of Reclamation and the Indiana Bureau of Mines. Other areas shown on the map were adapted from TIGER line files, which were published as the 2000 TIGER line files. Updated information was also obtained from several series of published maps. Roads are represented from a variety of sources, including: Indiana Department of Transportation, Indiana Geological Survey, and several series of published maps.

Additional Information
All mine data shown on the map are organized in a database and are available from the Indiana Geological Survey. The map was digitized and then converted to a format suitable for ArcGIS software (Environmental Systems Research Institute) on the Windows platform. All mine data are organized in a database and are available from the Indiana Geological Survey.

Data Availability
For more information about the map, contact the Indiana Geological Survey, using data collected for the Coal Maps was developed by the Indiana Geological Survey. The map is digital and is available on the Environmental Systems Research Institute (ESRI) on the Windows platform.
